

Structural Bonding Solutions

Advanced Solutions

For almost 50 years, Henkel Loctite has been at the cutting edge in the development of adhesive technologies and manufacturing processes.

During this time its chemists, technologists and application engineers have built up unparalleled knowledge and experience of every bonding challenge.

This wealth of information has established

Henkel Loctite as a worldwide speciality chemical company and market leader in high-performance adhesives, sealants, coatings and related chemicals. Loctite[®] celebrates its 50th anniversary in 2003, and since the original development of a unique anaerobic technology, Henkel Loctite innovations have become vital components in many of the machines and products that are at the core of everyday life. The company operates in markets as diverse as electronics, automotive, aerospace, biomedical and many manufacturing industries.

Henkel Loctite offers much more than outstanding products, it provides solutions to many of industry's biggest challenges.

Whether it is by reducing assembly costs, providing design and application assistance or increasing the reliability of a process, Henkel Loctite is dedicated to earning and keeping the trust of its customers.

Over many years, the Henkel Loctite technology base has been greatly expanded with the acquisition of the Resin Technology Group, Dexter, Multicore and Power Devices. With the addition of Hysol[®] to its product family, Henkel Loctite has developed a broad range of unique epoxy adhesives, which together with its commitment to quality and service, have made it the single source for all engineering adhesives.

The Loctite[®] Hysol[®] range comprises one and two component epoxies that offer improved clarity, less odour, better flow, higher strength and greater durability than competitive products. They are approved and specified by engineers and designers worldwide for a wide range of bonding applications, from aerospace to the electronics industry, from maintenance to original equipment manufacturers. Close attention to environmental issues means they can be shipped and used in markets worldwide without compromising performance.

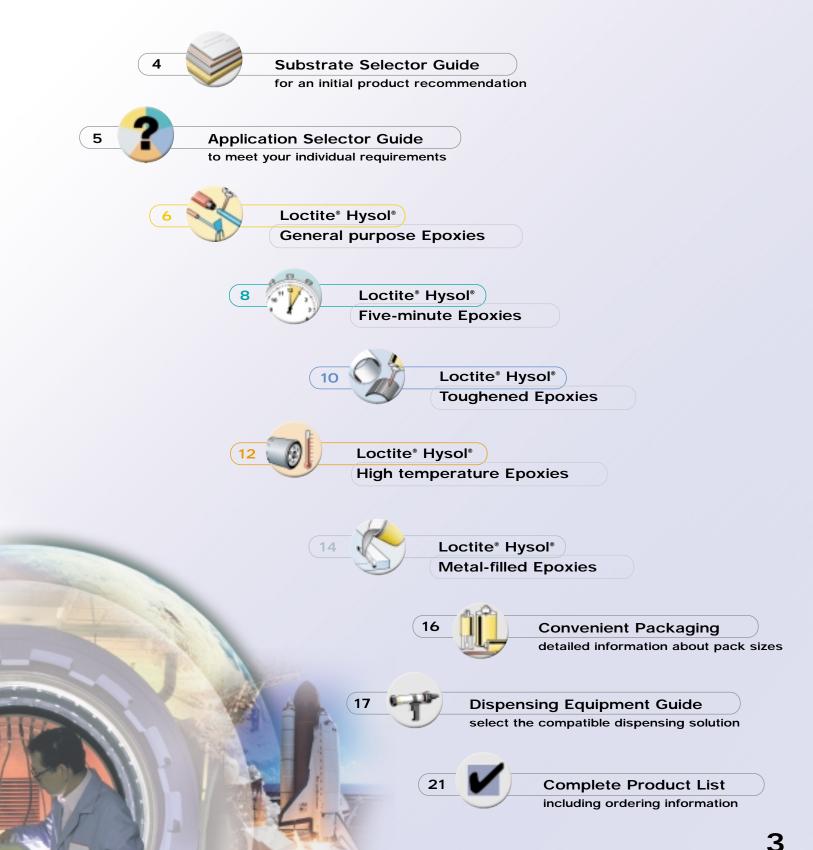

The strength of the Loctite[®] Hysol[®] product range is in its ability to bond many substrates including metals, glass, ceramic, wood and most plastics.

They cure rapidly at room or raised temperatures and are ideal for automated production processes to replace welding and riveting with a corrosion free, reduced stress joint.

Making the Right Choice

This comprehensive guide is designed to make it easy for you to select the right Loctite[®] Hysol[®] Epoxy adhesive for a variety of applications. Simply select suitable adhesives for bonding particular substrates and compare the characteristics of different products using the technical data. Choose the compatible dispensing equipment for your pack size and see the product list for ordering information.

Substrate Selector Guide

for an initial product recommendation

Loctite® Hysol® Epoxy adhesives bond a wide range of substrates.

Simply use the table to select the best adhesive for your application. Each adhesive is colour coded to its product group. Refer to the following pages for product description and typical properties of the recommended adhesive.

| Steel | ++ | ++ | + | + | ++ | ++ | ++ | ++ | ++ | ++ | ++ | ++ | ++ | ++ | ++ | ++ | ++ | 4630 | ++ | ++ | + | 4910 | 492 | ++ | + | + |

Henkel Loctite recommends that the selected product for your specific application is evaluated to determine suitability. If you require additional information or advice, the Henkel Loctite Technical Centre has engineers, chemists and technical personnel trained to provide on site design and engineering support, application testing, validation and integration of dispensing and cure systems, in addition to maintenance and stress assessment.

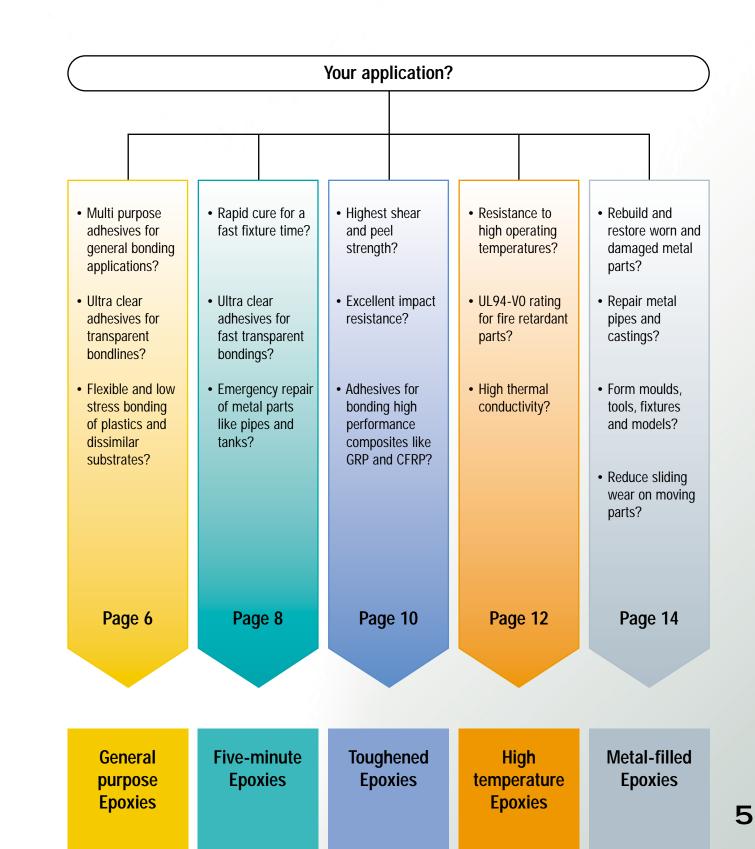

The Loctite® Hysol® range is part of an extensive range of high-performance adhesives and sealants designed for industrial use. This includes Anaerobic, Cyanoacrylate, Light Curing and specialised Silicone adhesives. For more information on the complete range of products please contact your local Henkel Loctite office or visit the web site at:

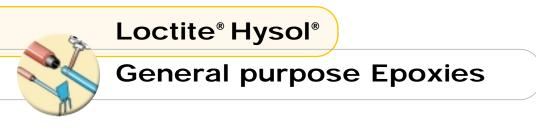

Application Selector Guide

to meet your individual requirements

Loctite[®] Hysol[®] Epoxy adhesives for a variety of applications General purpose epoxies are suitable for a wide range of general and flexible bonding applications. Five-minute epoxies are fast curing and ideal for multi-purpose use or metal repair where a rapid cure is required. Toughened epoxies offer exceptional strength and impact resistance, while High temperature epoxies are designed for use up to 180 °C. For the repair of worn or damaged parts, Metal-filled epoxies provide the perfect solution. The range also includes ultra clear products for bonding transparent substrates, adhesives with an extended working life for large areas as well as paste adhesives for gap filling and vertical applications.

- Medium viscosity
- Extended working life - Excellent humidity resistance

Loctite® Hysol® 3421 A&B is a general purpose, 2K-Epoxy adhesive, for bonding large surfaces which require a long open time. Ideal for bonding water-pipes, boat interiors and laminating surf boards.

- Medium working life
 - Excellent chemical resistance

Loctite[®] Hysol[®] 3423 A&B is a general purpose, 2K-Epoxy adhesive, suitable for gap filling and vertical applications. Ideal for bonding metal parts and components.

- Light paste
- Optical clarity
- Multi purpose

Loctite[®] Hysol[®] 9481 A&B is a general purpose, 2K-Epoxy adhesive, suitable for a wide variety of substrates including metals, ceramic, glass and most plastics. Ideal for bonding fibre optics and printed circuit boards.

- Flowable - Ultra clear
- Low moisture absorption

Loctite[®] Hysol[®] 9483 A&B is a general purpose, 2K-Epoxy adhesive, suitable for bonding and potting where optical clarity and high strength are required. Ideal for bonding decorative panels and displays.

- Medium working life
- Flexible (Elongation: ~ 20 %)
- High impact resistance

Loctite[®] Hysol[®] 9484 A&B is a general purpose, 2K-Epoxy adhesive, suitable for low stress and high impact resistant bonding. Ideal for bonding dissimilar substrates like GRP, SMC and composite elements.

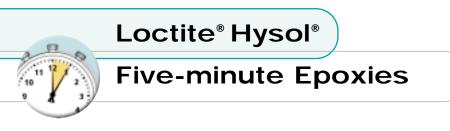

Loctite[®] Hysol[®] 9489 A&B is a general purpose, 2K-Epoxy adhesive, suitable for low stress and high impact resistant bonding of large surfaces. Ideal for bonding dissimilar substrates like GRP, SMC and composite elements.

- Extended working life - Flexible (Elongation: ~ 60 %) - High impact resistance

- Low temperature curing
- Low shrinkage
- Flexible

Loctite[®] Hysol[®] 9533 is a general purpose, 1K-Epoxy adhesive, suitable for a wide variety of substrates including metals, ceramic, glass and most plastics. Suitable for heat curing at low temperatures.

Loctite[®] Hysol[®] 3430 A&B

- Medium viscosity - Ultra clear - Toughened

Loctite® Hysol® 3430 A&B is a five-minute, 2K-Epoxy adhesive, suitable for applications requiring an optically clear bond line. Ideal for bonding glass, decorative panels and displays and general DIY applications.

Loctite[®] Hysol[®] 9455 A&B

- Flowable - Ultra clear
- Flexible (Elongation: ~ 80 %)

Loctite[®] Hysol[®] 9455 A&B is a five-minute, 2K-Epoxy adhesive, with an optically clear bond line and high impact resistance. Ideal for bonding and potting of optical components like sensors and lenses.

Loctite[®] Hysol[®] 3422 A&B

- Medium viscosity
- Fast curing
- High strength

Loctite® Hysol® 3422 A&B is a five-minute, 2K-Epoxy adhesive, suitable for a wide variety of substrates including metals, ceramic, glass and most plastics. Ideal for fast metal assemblies with a subsequent paint bake cycle.

Loctite[®] Hysol[®] 9450 A&B

- Non-sag paste - Translucent

- Fast curing

Loctite[®] Hysol[®] 9450 A&B is a five-minute, 2K-Epoxy adhesive, suitable for a wide variety of substrates including metals, ceramic, glass and most plastics. Ideal for gap filling and vertical applications.

Loctite[®] Hysol[®] 3450 A&B

- Medium viscosity
- Steel filled
- High strength

Loctite® Hysol® 3450 A&B is a five-minute, 2K-Epoxy adhesive, suitable for gap reparing and filling. Ideal for bonding and filling damaged components.

Loctite[®] Hysol[®] 3455 A&B

- Non-sag paste - Aluminium filled - High strength
- Loctite[®] Hysol[®] 3455 A&B is a five-minute, 2K-Epoxy adhesive, suitable for repairing and rebuilding worn metal parts.

Loctite[®] Hysol[®] 3463 A&B Metal Magic Steel[™] Stick

- Steel filled kneadable stick
- Cures under water
- NSF approved (for potable water)

Loctite[®] Hysol[®] 3463 A&B Metal Magic Steel[™] Stick is a rapid cure, 2K-Epoxy adhesive, suitable for emergency metal repairs. Ideal for sealing leaking tanks and pipes, filling oversized bolt holes, smoothing welds and repairing small cracks in castings.

Loctite[®] Hysol[®] 3471 A&B Metal Set S1

- Steel putty

- Low shrinkage on cure (0.1 %)
- Temperature resistant (120 °C)

Loctite[®] Hysol[®] 3471 A&B is a steel filled, 2K-Epoxy adhesive, for repairing and rebuilding worn metal parts. Ideal for repairing pipes and castings as well as cracks in housings and machine parts. Making of moulds, models, tools and fixtures.

Loctite[®] Hysol[®] 3472 A&B Metal Set S2

- Steel liquid
- Low shrinkage on cure (0.1 %) - Temperature resistant (120 °C)

Loctite[®] Hysol[®] 3472 A&B is a pourable steel filled, 2K-Epoxy adhesive, for repairing and rebuilding worn metal parts. Ideal for repairing pipes and castings as well as cracks in housings and machine parts. Making of moulds, models, tools and fixtures.

Loctite[®] Hysol[®] 3473 A&B Metal Set S3

- Steel putty - Fast curing

- Temperature resistant (120 °C)

Loctite[®] Hysol[®] 3473 A&B is a

steel filled, 2K-Epoxy adhesive, for emergency repairing and rebuilding worn metal parts. Ideal for repairing pipes and castings as well as cracks in housings and machine parts. Making of moulds, models, tools and fixtures.

Loctite[®] Hysol[®] 3475 A&B Metal Set A1

- Aluminium putty

- Low shrinkage on cure (0.1 %)
- Temperature resistant (120 °C)

Loctite[®] Hysol[®] 3475 A&B is an aluminium filled, 2K-Epoxy adhesive, for repairing and rebuilding worn metal parts. Ideal for repairing castings and cracks in housings and machine parts. Making of moulds, models, tools and fixtures.

Loctite[®] Hysol[®] 3479 A&B is an aluminium filled, 2K-Epoxy adhesive, for repairing and rebuilding worn metal parts in high operating temperature applications. Ideal for repairing castings and cracks in housings and machine parts.

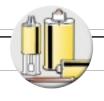

Loctite[®] Hysol[®] 3479 A&B Metal Set HTA

- Aluminium putty - Low shrinkage on cure (0.2 %) - High temperature resistant (190 °C)

Loctite[®] Hysol[®] 3474 A&B Metal Set M

- Self-lubricating
- High wear resistant
- Temperature resistant (120 °C)

Loctite® Hysol® 3474 A&B is a mineral filled, 2K-Epoxy adhesive, which forms a self-lubricating surface to reduce sliding wear on moving parts. Ideal for metallic surfaces under friction.

Convenient Packaging

detailed information about pack sizes

Loctite[®] Hysol[®] 2K-Epoxies

To reduce wastage and control costs, two-component products are available in easy-to-use 50, 200 and 400 ml dual cartridges with square mix-nozzles, designed for use with Henkel Loctite manual and pneumatic dispensers. These compact mixers offer the highest mixing efficiency as well as the lowest waste and pressure drop.

Two-component epoxies are also available in 1 and 20 kg packs for high volume applications.

Some special products for emergency repairs and maintenance applications are packed in manual mix twin syringes, tube kits or tub kits.

Loctite[®] Hysol[®] 1K-Epoxies

All one-component products are packed in convenient 30 ml syringes as well as 300 ml and 1 kg cartridges, designed for use with the Henkel Loctite handheld applicators and automatic systems.

Dispensing Equipment Guide select the compatible dispensing solution

To speed production and provide accurate and consistent application, Henkel Loctite offers a complete range of dispensing equipment for the automated application of adhesive products. The range includes simple hand-operated dispensers, through to fully automated systems and a broad range of accessories. The engineers and technicians at Henkel Loctite have the expertise and experience to develop products and equipment, design prototypes, carry out testing and evaluation, in addition to on-site consultation and support.

Handheld Applicators

These ergonomically designed applicators are for the fast, precise, clean and economic dispensing of epoxy adhesives from their original packages. Whether manual or pneumatic, they reduce waste and minimise operator contact. The selection of a Loctite® handheld applicator is based on product type, package configuration and process requirements.

Automatic Systems

An analysis of your production process will determine the most cost effective dispensing system and application method for your current requirements. However, if you are planning to update your production process, Henkel Loctite can demonstrate the benefits of installing a flexible system that can grow with your changing needs.

Conversion Kits for 50 ml Dual Cartridges

Conversion Kits for 50 ml Dual Cartridges to use with standard 310 ml Caulking Handguns.

Available for:

- 50 ml Dual Cartridges 1:1 (97956)
- 50 ml Dual Cartridges 2:1 (97957)

Manual Handguns for 2K-Products

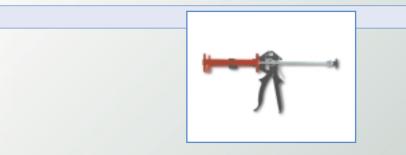

Handheld manually operated applicators provide a cost effective method to apply a product accurately with mininal waste.

Available for:

- 200 ml Dual Cartridges 1:1 (97041)
- 400 ml Dual Cartridges 1:1 (32185)

Dispensing Equipment Guide

select the compatible dispensing solution

Manual Handguns for 2K-Products

Handheld manually operated applicators provide a convenient method to apply product accurately with minimal waste.

Available for:

- 50 ml Dual Cartridges 1:1 & 2:1 (96001)
- 200 ml Dual Cartridges 1:1 & 2:1 (96003)
- 400 ml Dual Cartridges 1:1 & 2:1 (983438)

Pneumatic Handguns for 2K-Products

Handheld pneumatically powered applicators which provide a convenient method to apply a product accurately with minimal waste.

Available for:

- 50 ml Dual Cartridges 1:1 & 2:1 (97042)
- 200 ml Dual Cartridges 1:1 & 2:1 (983437)
- 400 ml Dual Cartridges 1:1 & 2:1 (983439)

Cartridge Pushers for 2K-Products

Pneumatically powered ram systems, designed for automatic applications.

Available as:

- 50 ml Dual Cartridges 1:1 & 2:1 (97042-CP)
- 200 ml Dual Cartridges 1:1 & 2:1 (983437-CP)
- 400 ml Dual Cartridges 1:1 & 2:1 (983439-CP)

Reservoir Systems for 1 kg Cans

Pneumatically powered reservoir systems for 1 kg Tubs and Jerry Cans, designed for semi-automatic and robotic applications.

Available as:

• Single Reservoir (97108) Reservoir with integrated Controller (97008)

Pump Systems for 20 kg Pails

Pneumatically powered pump systems, designed for robotic applications.

Available for:

- 20 kg Pails (on request)
- 20 kg Jerry Cans (on request)

Dispense Valves for 2K-Products

Dispense valves which are designed for semi-automatic and robotic applications in conjunction with a double reservoir or pump system.

Available as:

- Handheld (on request)
- Robotic (on request)

Twin Dispenser for 2K-Products

Volumetric mix dispenser, designed for semi-automatic and robotic applications in conjunction with a double reservoir or pump system.

• Max. 10 ml 1:1 (97640)

Manual Handguns for 1K-Products

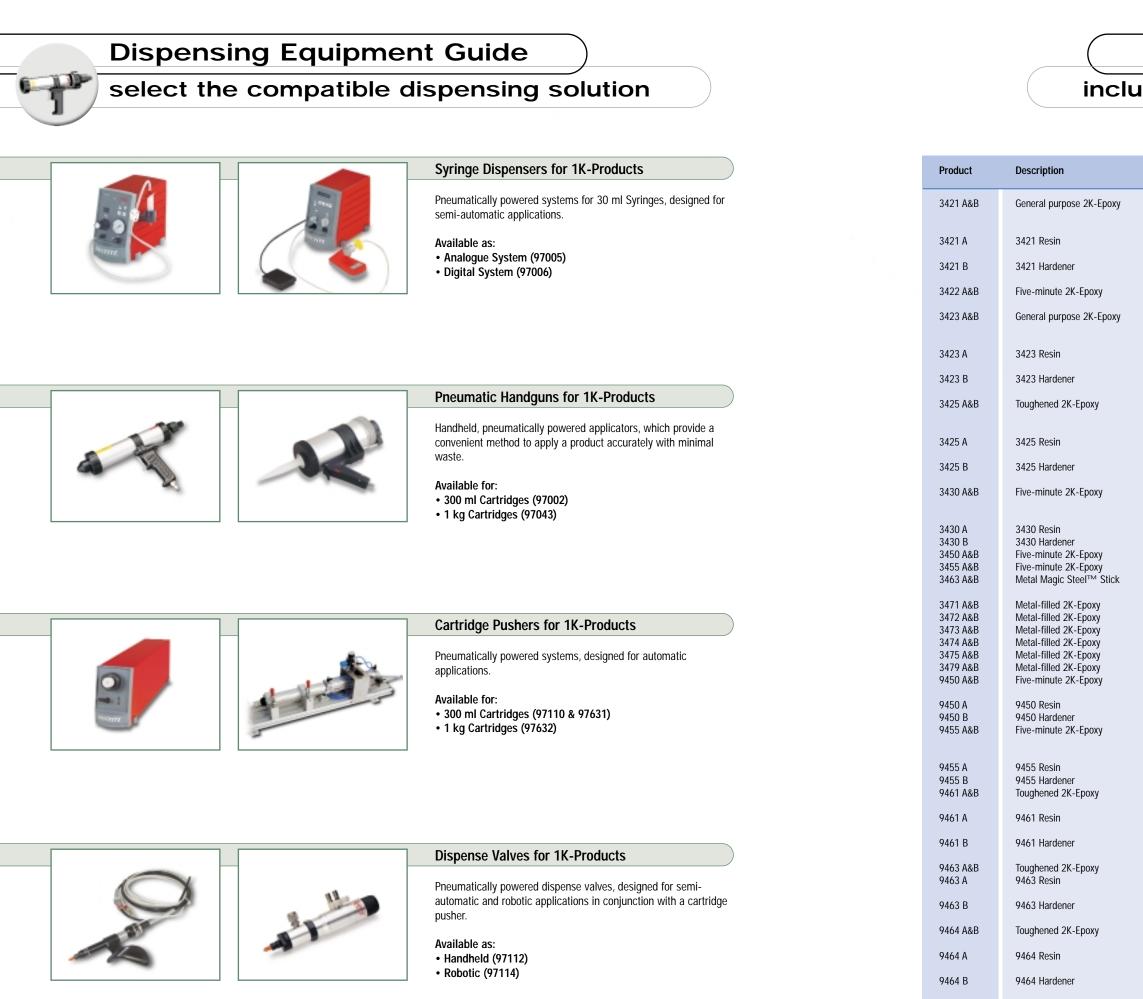

Handheld, manually operated applicators, which provide a cost effective method to apply a product accurately with minimal waste.

Available for:

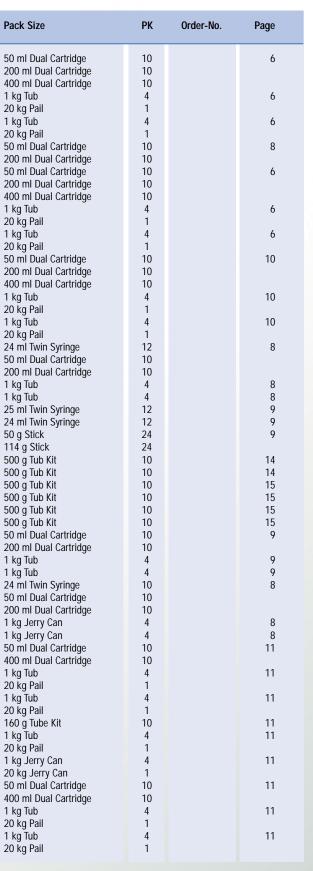

- 30 ml Syringes (98026)
- 300 ml Cartridges (97040)
